The new opera house is nearing completion. In fact the managers are expecting to have their opening next week, but whether everything will be in readiness or not by that time is not certain. Messrs. Filton and Alexander have changed their plans to some extent. Instead of fitting up a room merely as a room suitable for an electric theater they have made a first-class opera house out of it. The room is 26x54 feet with stage room of 16 x 26 feet in addition. It will seat about 350 people. Seats are provided for in the dress circle for 250 and in the gallery for 100. This will be ample for the average Marlinton audience at the present time. Instead of the usual drop curtains and scenery found in opera houses in the smaller towns this will be provided with raised curtains and scenes. The room will be fitted with regular opera chairs, electric lights and electric fans. Arrangements are now being made with one of the large vaudeville circuits and good first-class shows may be looked for in the course of the next few weeks. If the undertaking proves a success the managers will build a theater next summer that will accommodate the best shows now on the road.

Most Remarkable Lady.

Miss Dot Ford, who is to appear at the Grand Opera House next week, is without doubt the most remarkable lady in the world, insomuch as she possesses the peculiar ability to escape from any and all handcuffs, shackles, leg irons, manacles, straight jackets and even prison cells. Appearing in conjunction with her brother Don Ford they will present many sensational mysteries each night including "Transposition," a packing box mystery.

They carry an excellent company of vaudville acts supporting their mystifying performance, including the latest and best moving pictures and illustrated songs.

Don't fail to see this remarkable company, positively the only time here this season.

the Roger-Grilley Recitals.

The popularity of this course is increasing
with every entertainment as shown by
the large increase in the crowd attending
the Roger-Grilley Recitals last Thursday
night and the treat given by the manage-
ment to the children of Marlinton and
vicinity was taken advantage of by over
one hundred children who were all highly
pleased with the performance.

The Musical Four the third number of
the Lecture Course will be here on the
9th of February, this is followed by the
Dudley Buck Company on March 2nd and
Dr. Edward Amherst Ott on April 26th.
These numbers are very fine, all bearing
a National reputation, and the manage-
ment expects to book a similar course
next year and is especially desirous that
all people in Marlinton and vicinity should
attend one or more numbers of the course
this season.

H. Hardman three promising school teachers were seen on our streets Saturday.

Mr. Edward K., Marcus, Musical Director and Bartone Soloist, of the Dudley Buck Company which appears at the Opera House Thursday night, March 2nd, has had a thorough musical training. He was a piano pupil for several years of Mme. Schiller. Dr. Garrett Smith and Mr. Walter Hall were his instructors on the organ, and Mr. Marcus now occupies the position of organist in a prominent Fifth Avenue church. His vocal training has been under the leading New York teachers and he possesses a rich powerul voice.

Hallowe'en Party.

A hallowe'en party was indulged in by a number of young folks at the opera house last Tuesday evening. There were fifty or sixty couples present. The costumes were grotesque and when the time came to unmask the surprises were many. Dancing and other forms of amusement were kept up until the midnight hour when refreshments, consisting of cider, chestnuts and ginger cakes, were served. The hall was appropriately decorated in foddor, pumpkins and varicolored leaves. A flash light photograph was taken of the merry makers.

Stage, Opera House, Wednesday
Night, March 8th.

In the Kellogg-Hartman Company there is an attraction which has no superior in the particular line of work in the country today. There are five men singing and performing in the party three gentlemen and two ladies. Much of their program is given in elegant and appropriate costumes. Some of these numbers are the best examples of wit that good musical literature has to offer. Songs are also given in grand operas.

The chief claim that is made for this company is that they present entertaining concerts of such solid musical character and fresh wholesome power that it is sure to capture the musical layman while winning admiration from the more critical of the severer. No one has already seen them. They have discovered just what the audience want in the music and entertainment, but their claim

Most Accomplished Artists on the European Stage—Opera House, Wednesday

Night March 9th

It has been a week or more since the first of our series of Opera House performances, and we have not had time to get up a full report on them. But we have had time to read some of the reviews, and they are generally favorable. One reviewer said that "the performances were all well done, and the music was excellent." Another said that "the singing was good, and the acting was natural." Still another said that "the costumes were very attractive, and the sets were well designed." So it seems that the critics are pleased with the performances at the Opera House.

We have also received some good reviews from other sources. One newspaper said that "the singing was excellent, and the acting was natural." Another said that "the music was excellent, and the singing was good." Still another said that "the sets were well designed, and the costumes were very attractive." So it seems that the critics are pleased with the performances at the Opera House.
